## THOUSANDS SEEK FAIR CONCESSIONS

San Francisco, Oct. 24.—Up to and inclusive of August 31, 1913, the cash receipts of the Panama-Pacific International Exposition company amounted to more than \$6,000,000. The expenses to that date amounted to less than \$5,000,000 and investment expenditures to \$4,753,116, leaving a cash balance on hand of \$1,246,884. The actual present available assets of the exposition company aggregate \$11,978,115. It will require about \$12,000,000 more to complete the work, and the actual net assets amount to this, without considering the sums to be delivered from concessionaires, interest on money in bank and receipts from divers pre-exposition operations.

The state of New York has appropriated \$700,000 for its building at the exposition. More than 6000 applications have been received for amusement and other concessions at the exposition. One hundred accepted to date involve a total expenditure of about \$7,000,000. More than 7000 people will be employed in the concessions district and the total amount to be invested in amusements in 1915 will probably aggregate \$12,000,000. Among the most important concessions will be "The Grand Canyon of the Colorado," a working model of the Panama canal, naval sub-marines in operation; "Creation," based on the first chapter of Genesis; "Toyland," a reproduction of the famous city of Nuremberg, Germany; "Fire and Sword," or the fall of Adrianople; an ice palace; "Forty Niners' Camp," "Mohammed's Mountain," a Chinese city, and others.

## HUERTA CAUSES MORE ARRESTS

Diaz Takes Refuge in the U. S. Consulate at Vera Cruz.

PERSONAL STAFF HELD

American Ship Held in Harbor by Guns of Mexican Warship.

Mexico City, Oct. 23.—The entire personal staff of President Huerta was arrested this evening, including the chief of staff, Colonel Corral, formerly private secretary of Huerta. At the same time it was announced that orders had been issued for the arrest of General Felix Diaz at Vera Cruz, owing to the discovery of compromising documents which indicate the existence of a military conspiracy to start a new uprising in the event of the defeat of Diaz at the polls.

## DIAZ WILL BE ARRESTED IF HE QUITS CONSULATE

Vera Cruz, Oct. 23.—General Felix Diaz departed from his residence at 10 o'clock tonight, under the protection of President Wilson's personal representative, John Lind, the American consul, W. W. Canada, and his secretary, and American residents and Mexican friends. He has taken refuge in the American consulate.

The military authorities have been informed that a special train has been made ready for General Diaz and an instance of this is shown by his statement this morning that he has arranged for an exhibit of Idaho potatoes at the next national apple show held at Spokane during the week of November 17-22, which will be the first time any other product besides apples has been shown there.

## RADIUM TREATMENT WILL BE GIVEN FREE

Philadelphia, Oct. 23.—Dr. Charles L. Parsons, chief of the bureau of the Division of mineral technology of the United States bureau of mines, at the convention of the American Mining congress today, announced the establishment in the near future of two free radium clinics where cancer and kindred diseases which have shown improvement under radium treatment will be treated absolutely free.

One of the radium-cure clinics will be opened at the Memorial hospital in New York City and the other in the hospital of Dr. Howard A. Kelly, the noted gynecologist of Johns Hopkins university, Baltimore.

In making the announcement, Dr. Parsons said the government was indebted to several men who had guaranteed the money through which twenty-seven mining claims producing radium-bearing ore in Colorado had been acquired.

The men who have guaranteed the money, without hope of any but scientific reward, as announced by Dr. Parsons, are Dr. James Douglas, president of the Phelps-Dodge company of New York City, dean of the mining engineering profession; Dr. Howard A. Kelly of Baltimore, Archibald Douglas of New York and E. J. Maloney of Wilmington, Del.

To guarantee the success of the venture, Dr. Parsons announced the incorporation of the national radium institute for the purpose of working the mineral deposits on the claims; that the entire proposition will be under the supervision of the bureau of mines; that none of the radium extracted will be for sale; that every milligram of the precious metal will be used in the cause of humanity, and that a new method of extracting the radium has been devised, and this will reduce the cost materially.

The congress tonight elected these officers:  
President—Carl Scholz, Chicago.  
First vice president—Hennen Jennings, Washington, D. C.  
Second vice president—M. S. Kemmerer, New York.  
Third vice president—Harry L. Day, Wallace, Idaho.  
Secretary—James F. Calibreath, Denver.

**WILL GIVE SILVER TEA.**  
Pocatello, Ida., Oct. 23.—The Catholic ladies will hold a silver tea next Friday afternoon at Eagles' hall. The ladies who will preside over the tables are: Mesdames Hal Stenton, McDonald, Jarboe, O'Malley, McCabe, Jost, Ford, Lloyd, Rickard, Stevenson and Caravella.

Mrs. George F. Gasser entertained yesterday afternoon and today at luncheon at her home on Garfield street. The house was prettily decorated with roses and chrysanthemums. About 30 guests were present.

## May Help You if Lungs Are Affected

Proper diet, fresh air and temperate habits are beneficial to persons suffering from Lung Trouble; but in a great many instances reports show that the addition of a medicine for this affection has materially helped in bringing about recovery. For more than fifteen years Eckman's Alternative has been a medicine for Throat and Lung Troubles, has accomplished good results. Read what it did in this case:

"Gentlemen: In December, 1908, March, 1909, and September, 1909, I was taken with hemorrhages of the lungs which confined me several weeks each time to my bed. My doctor advised me to go West. In November I started for Denver, Colo. After my arrival I met Michael Brody, who, upon learning of my condition, urged me to take Eckman's Alternative. I kept on taking the medicine and improved fast. In March, 1910, I returned home. I am entirely well, have a good appetite and sleep well. When I left Denver my weight was 130 pounds. I now weigh 165, my normal weight. I thank God and your Alternative for my health."

(Affidavit) PAUL L. FASNAUGHT.  
(Above abbreviated, more on request.)  
Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections. Bronchitis, Bronchial Asthma, Stomach Colds and in building the system. Contains no narcotics, poisons or habit-forming drugs. Sold by leading druggists. Write the Eckman Laboratory, Philadelphia, Pa., for booklet telling of recoveries and additional evidence.

## MAYOR IN AUTO COLLISION.

Pocatello, Ida., Oct. 23.—Mayor Theodore Turner narrowly escaped a serious accident today when his car was run into by one belonging to Barney McGarvey. The mayor's car was a light runabout and was carried several feet by the heavy car, as the accident occurred on rounding a corner on Main and Center streets. Considerable damage was done the mayor's car, but he himself escaped with a severe shaking up and minor scratches.

## COLLEGE VIEW IS VINDICATED

The recent decision of the Acting Secretary of the Interior, Andrus A. Jones that "filling of the land or other appropriate treatment for the purpose of conserving the moisture with a view of making a profitable crop the succeeding year, will be deemed cultivation within the terms of the Smoot Act where that manner of cultivation is necessary or generally followed in the locality," brings

## TUNA FISH

**TUNA SALAD**—One can TUNA shredded, seasoned with salt, pepper, juice of half a lemon, little celery chopped fine, salad dressing and paprika. Serve on lettuce leaves.

1/2-lb. cans ..... 17 1/2c  
1-lb. cans ..... 30c

338 25th St. HARRIS GROCERY CO. Phone 2215-2216

to mind that the Agricultural college has been making the contention for just concession for years. As soon as the act was passed in 1909, President Widtsoe began to advocate by pen and in speeches, the doctrine that the summer fallow practice of dry farmers ought to be interpreted as cultivation, exacted by the law, and that homesteaders did not relinquish the title to their holdings by not raising a crop every year. He argued that successful methods of dry farming involved the raising of a crop only every second year, that the field must be tilled during the entire summer with the end in view of conserving sufficient moisture in the soil to produce a crop the following year. Heretofore, however, the department of the interior did not accept that view, but held that land acquired under the act was forfeited by holders that did not raise a crop every year. The ruling of the present administration that summer tillage for conservation of moisture on dry farms fills all the requirements of the Smoot law is not only a great victory for homesteaders whose holdings had been declared forfeited and a great blessing to this part of the country, but a signal victory for the Utah Agricultural college and what it stands for.

## GRANTS VENUE CHANGE.

Provo, Oct. 23.—The case of the state against Frederick S. Dart was dismissed in the Fourth district court today and remanded to justice's court with an order to grant a request for change of venue. This action was taken by the judge upon motion by the attorney for Dart. The attorney in making the motion asserted that the justice of the peace who found Dart guilty and fined him \$150 acted illegally by refusing to grant a change of venue.

Similar action was taken in two other cases, against Uriah Stewart and A. H. Engberg. District Attorney I. H. MacDonald announced that he would probably apply to the supreme court for a writ of mandate directing Judge Marshall to proceed with the trial of the three cases.

## AUTO RUNS DOWN YOUTH.

Pocatello, Ida., Oct. 23.—William Walker, a carrier boy for the Pocatello Tribune, was run over by an automobile belonging to H. H. White, a druggist, last evening, and was painfully injured. He suffered a broken shoulder blade and a great number of bruises. The accident occurred on the viaduct and the victim watching an auto coming in front of him, did not see the one coming from the rear. The driver of the car did not see the boy until after he was hit.

## SULZER OPENS HIS CAMPAIGN

New York, Oct. 23.—Former Governor Sulzer today directed the organization of the campaign committee and the selection of speakers to aid him in his fight for election to the assembly from the Sixth Manhattan district. Analyzing the events subsequent to his impeachment as governor, Sulzer in an open air speech tonight to voters in the Sixth district, said: "The appeal to the high court of public opinion from the packed court of impeachment is resulting in an overwhelming reversal of the Murphy verdict."

Sulzer said he had read that Charles F. Murphy "now bitterly resents his failure to order the high court of impeachment to disbar me from holding public office."

"The chief" had grown so used to getting away with his job that he never dreamed that he would be balked when he threw me out of the governorship. He is mortified to learn that while he had me lynched like a horse thief and the mob left me for dead, there is still breath enough in my body to fight corrupt bossism."

"Mr. Murphy now is talking about having me indicted on the evidence which President Justice Cullen refused to consider. They do not dare submit my case before a fair jury. If I could get a chance like that I would hail it with delight."

Sulzer attended a theatre tonight before his automobile speech-making and was recognized as he sat in a box beside Mrs. Sulzer. The audience cried for a speech. At the end of the first act, after the curtain had descended, it went up suddenly

## EPILEPTIC FITS Stop

when the weak nerves that cause the spells are strengthened and kept in good condition by the use of Dr. Guertin's Nerve Syrup. It helps with the first Dose. ## CONTRACTS WITH RAILROADS END

Brotherhoods Ask for More Pay and New Agreements on Ninety Roads.

MAY ARBITRATE CASE

Enginemens of West Desire to Maintain Higher Wage Scale and Overtime.

Chicago, Oct. 23.—Forty thousand engine drivers and firemen on ninety western railways, have asked their respective companies for increases in wages aggregating \$50,000,000 a year. In addition, engineers and firemen ask that the railroad companies recognize the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen as separate organizations and deal with them as one union. Each of the brotherhoods named, through their chiefs, W. S. Stone, for the engineers and W. S. Carter, for the firemen, has given notice by letter of their desire to end the present contracts November 10.

Managers of the ninety railroads addressed have answered that an abrogation of these contracts is agreeable to them, as they have some new matter they desire in new contracts. From this it is inferred that the railroad interests will contest any advance in pay and put their case to the public, through arbitration.

Contracts end November 10. Under this exchange of letters the contract of the two big brotherhoods and the railroads will terminate November 10. After that they will work without agreements until a new deal is made. Conferences will probably begin in Chicago shortly after.

The railroads will deal through the General Managers association and the engineers and firemen through Messrs. Stone and Carter, with grievance committees of different territories.

The request for higher pay comes as a result of the increase given enginemens on the eastern lines. The roads west of Chicago and east of the Rocky Mountain territory have always paid their employees higher than the eastern group, and the enginemens of the western lines desire to maintain this higher scale.

The roads in the mountain district pay a scale higher than the roads between Chicago and St. Louis and the mountains. Passenger enginemens on western roads now receive from \$4.15 to \$5.60 per 100 miles, and passenger engine firemen \$2.40 to \$4 per 100 miles. Freight enginemens receive \$4.80 to \$6.40 per 100 miles, and freight firemen from \$2.95 to \$4.25 per 100 miles. Passenger, engineers and firemen make a greater mileage and therefore are paid higher. One hundred miles is considered an average day for freight enginemens.

In addition, enginemens are allowed ten miles' pay for every hour of overtime. The demands are for an increase in wages of firemen and engineers of from 25 cents to \$1 for every 100 miles run and time and one-half for overtime—that is they desire to be credited with a fifteen-mile run for every hour overtime.

## WHAT IT WAS.

The small boy was the first to answer the telephone. The person on the other end of the wire was a friend of his mother, and the following conversation ensued: "Is this Mrs. Blank's residence?" "No, ma'am; it's Mrs. Blank's little boy."—Everybody's.
